

PREVENT • MAINTAIN • REFRESH

MOXI®

MOXI® is a gentle, non-ablative fractional laser designed for patients who want to maintain healthy, radiant skin, address early signs of aging, or improve overall tone and texture with relatively minimal downtime. It is great for patients who prefer a proactive, preventative approach to skin health and is often performed as a series or incorporated into a long-term maintenance plan.

WHAT IT CAN IMPROVE

- Uneven pigmentation and sun damage
- Dullness and uneven tone
- Rough texture and visible pores
- Early fine lines
- Overall skin clarity and radiance

Best for: Patients seeking more noticeable correction of pigmentation, texture, fine lines, pores, and overall signs of aging.

START WITH A CONSULTATION

Your Best Skin Starts With a Personalized Plan

Laser treatments are not one-size-fits-all. Your ideal treatment depends on your skin, concerns, desired level of correction and available downtime.

Treatment	Primary Focus	Treatment Intensity	Typical Downtime
MOXI®	Prevention, maintenance, pigmentation, & early aging	Gentle to moderate	Minimal to moderate
HALO®	Pigmentation, texture, pores, fine lines, & overall correction	Moderate to intensive	Moderate
TriBrid™	Comprehensive correction using multiple laser technologies	Highly customizable	Moderate to significant
Contour TRL™	Deep resurfacing, wrinkles, scars, & advanced sun damage	Customizable, including intensive treatments	Significant

ADVANCED LASER RESURFACING

Reveal Your Best Skin.

Discover personalized laser treatments designed to improve pigmentation, texture, fine lines, sun damage, scarring, and overall skin quality, tailored precisely to your skin, your goals, and your life.

MOXI® | HALO® | TRIBRID™ | CONTOUR TRL™

HYBRID FRACTIONAL RESURFACING

HALO®

HALO® combines both ablative and non-ablative wavelengths in a single treatment to address both the surface and deeper layers of the skin simultaneously. This dual-wavelength approach allows us to customize the treatment precisely, balancing the level of correction with your available downtime and skin goals.

WHAT IT CAN IMPROVE

- Visible sun damage and discoloration
- Softens fine lines and wrinkles
- Rough or uneven texture
- Reduces the appearance of enlarged pores
- Supports collagen remodeling
- Overall skin clarity and radiance

Best for: Patients seeking more noticeable correction of pigmentation, texture, fine lines, pores, and overall signs of aging.

THREE TECHNOLOGIES · ONE TREATMENT

TriBrid™

TriBrid™ represents the most advanced level of customization available in our laser treatment menu. By combining three complementary laser technologies during a single treatment session, TriBrid™ allows your provider to target multiple layers of the skin and address a broad range of concerns simultaneously, all within one carefully designed treatment plan.

WHAT IT CAN IMPROVE

- Multiple skin concerns in one customized treatment
- Both superficial and deeper signs of aging
- Tone, pigmentation, texture, and wrinkles
- Allows targeted treatment of specific areas
- May create more comprehensive results than a single technology alone

Best for: Patients with multiple concerns who want a comprehensive, highly customized skin-resurfacing treatment.

DEEPER · PRECISE · CUSTOMIZABLE

Contour TRL™

Contour TRL™ is a tunable erbium resurfacing treatment that allows your provider to precisely control the depth of treatment based on your individual concerns and goals. Contour TRL™ offers a wide spectrum of customization, making it an exceptional option for patients with more advanced concerns who are prepared for a more comprehensive recovery.

WHAT IT CAN IMPROVE

- Deep lines and wrinkles
- Significant texture irregularities
- Acne scars and other scars
- Advanced sun damage
- Smooths and resurfaces the skin
- Encourages new collagen and healthier skin renewal

Best for: Advanced aging concerns, deeper wrinkles, scarring, and patients seeking a more intensive resurfacing treatment.
